

Rotator

EC05R, EC10R, EC15R,
EC20R, EC30R

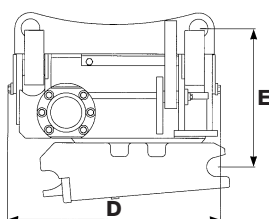

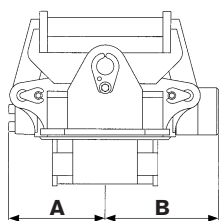

Adaptable to all excavators and backhoe loaders in the weight class 3–32 tonnes

If you only need rotation, without the tilt.

- **Rotator** delivered with tube, quick hitches and electrical installation equipment. Fits all excavators and backhoe loaders.
- **Implement hitch**
We supply most of the quick hitches sold on today's market.
- **Control system**
Choose between a variety of control systems, depending on your machine's characteristics.
- **Electrical system**
Adaptable to 12- or 24-volt electrical systems.

EC05R, EC10R, EC15R, EC20R and EC30R, also available with integrated grab. See separate fact sheet for optional grabber.

Specifications, Rotator

Type:	EC05R	EC10R	EC15R	EC20R	EC30R
Lidth A : (mm)	210	240	285	300	390
Width B : (mm)	160	290	307	310	390
Construction height C : (mm)	275	350	380	470	550
Length: (mm)	485	560	700	800	900
Weight: (kg)	110	230	290	410	680
Flow requirement: (l/min)	15–40	20–40	40–60	40–60	40–80
Working pressure: (MPa)	18–21	18–21	18–21	18–21	18–21
